## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election without traverse of the written Species Restriction in the previous Office Action is acknowledged.

### ***Allowable Subject Matter***

2. Claims 9-31 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Applicant has admitted that the prior art teaches a method/means for forming a tobacco bead by a forming conveyor; a pressing device; and a shaving device, wherein a first distance between the shaving device and the forming conveyor is regulated (by adjusting the position of the shaving device) as a function of the characteristics of the tobacco bead to keep the mass of tobacco per unit of length of tobacco bead constant. Also, the Wahle reference teaches the known method/means, such arrangement having two shaving devices and a pressing device, wherein the pressing device is also adjustable (see fig. 2, element 41) such that a second distance between said pressing device and the forming conveyor is changed. However, unlike the claimed instant invention, first and second distances are not regulated independently of each other. And, it would not have been obvious for one having ordinary skill in the art to modify the means/method of Wahle such that the distances were regulated in such manner. According to the instant specification, Applicant infers that regulating the two distances "independently" means that the aim (i.e. purpose or goal) of regulating one distance is

Art Unit: 1731

different than that of regulating the other distance (see instant specification page 8, lines 1-3). Therefore, the claims are allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
